

SANJAY R

+91 9080605039 · ravisanjay995@gmail.com · Chennai, India · LinkedIn · GitHub

Summary

ECE undergraduate interested in Software Development, Web Development, IoT, and Automation, with knowledge of Java, SQL, and Data Structures & Algorithms. Strong problem-solving skills with a keen interest in building practical and efficient technology solutions.

Education

KCG College of Technology, Chennai 2023 – 2027
B.E. Electronics and Communication Engineering **CGPA: 7.8**

Experience

QMAX Systems – Internship Training Program July 2026

- Gained hands-on experience in PCB and IC testing, troubleshooting, and repair techniques.
- Performed electronic testing procedures to identify faults and verify PCB and IC functionality.
- Developed practical knowledge of electronic components, circuit testing, fault identification, and repair processes.

Deloitte Australia – Technology Virtual Experience Program (Forage) June 2025

- Gained exposure to real-world technology consulting scenarios and professional technology workflows.
- Worked on problem-solving tasks involving business and technical decision-making.
- Developed an understanding of client-focused solutions and technology consulting practices.

Technical Projects

IoT Based Smart Fence System 2025

Embedded Systems, IoT, Sensors

- Designed a low-cost IoT solution for detecting unauthorized usage and abnormal activity in electric fences.
- Integrated voltage, current, PIR, vibration, and proximity sensors for real-time monitoring.
- Developed a sensor-based monitoring approach to identify potential energy misuse and improve public safety.

Digital Password Lock System using Verilog HDL 2025

Verilog HDL, Xilinx Vivado, FSM

- Designed and simulated an FSM-based digital password lock using Verilog HDL.
- Implemented password verification, unlock control, and alarm generation for incorrect password inputs.
- Verified system functionality through behavioral simulation and waveform analysis using Xilinx Vivado.

Certifications

- Internship Training Program – QMAX Systems (July 2026)
- Introduction to Internet of Things – NPTEL (Elite + Gold)
- Deloitte Technology Consulting Simulation – Forage

Technical Skills

Programming Languages: Java, C

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming,

Database: SQL

Web Development: HTML, CSS, JavaScript

Tools: GitHub, Xilinx Vivado, MATLAB, Flutter, Blender
